

Ichthys Project Onshore LNG Facilities Update

Community Bulletin #151– JKC Australia LNG Pty Ltd

Celebrating women in resources

The nominees and finalists from Leighton Contractors swapped their hi- vis work wear for high heels and glamorous frocks to represent the Project at the Women In Resources Northern Territory awards.

Last week, several outstanding women working on the Project were recognised at the inaugural Women In Resources (WIR) Northern Territory awards, held at the Darwin Convention Centre.

Manual roles in the construction and resources industries have traditionally been held by men but times are changing with increased female participation in these sectors.

Almost 900 women currently work on the Ichthys Project Onshore LNG Facilities across a wide range of roles such as engineers, boilermakers, electricians, and surveyors.

Brittany Boeck, Senior People & Capability Advisor with Leighton Contractors, is very proud of the LS Newco OPS-1 team which represented strongly across all awards categories with seven nominees and finalists.

“This team has created a women’s mentoring group which provides an opportunity for women working in roles traditionally held by men to come together regularly, creating a strong bond and support network for each other.”

Congratulations to all the nominees and finalists who participated in the WIR NT awards.

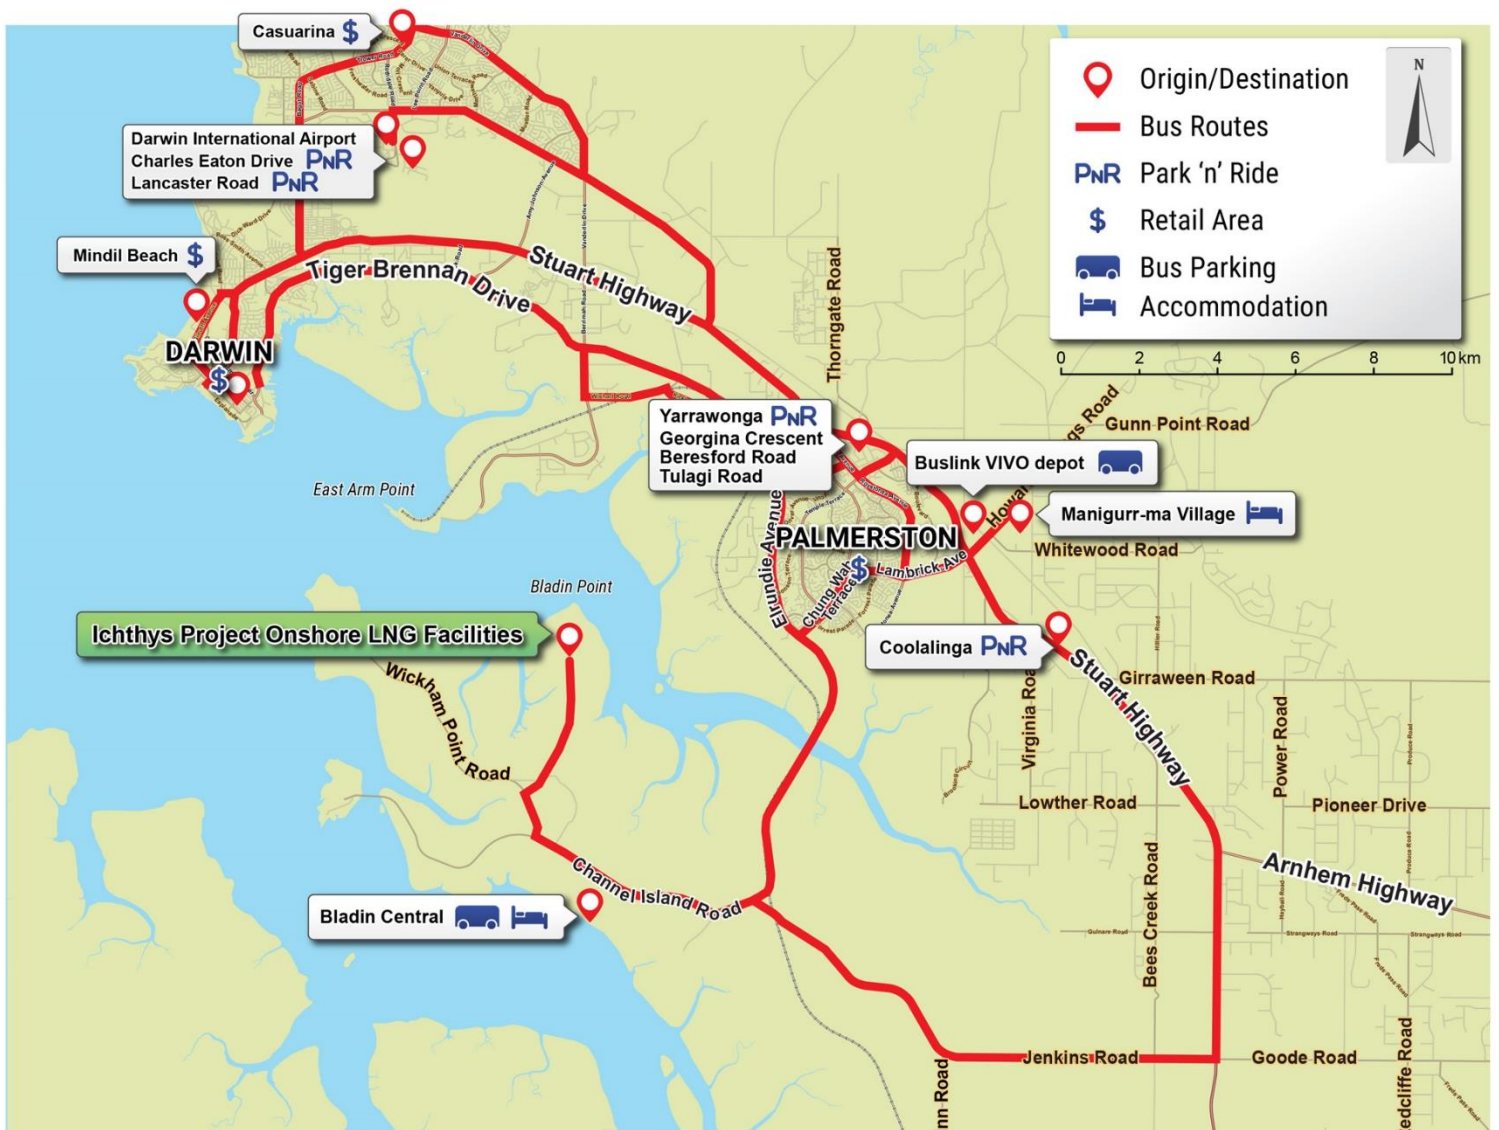

Employment enquiries

To register your interest to work on the Project, go to www.ichthysjobs.com. If you have difficulties online please seek assistance at our Construction Employment Mobilisation Centre (CEMC), 22 Mitchell Street, Darwin, from 10am to 4pm, Monday to Friday, or call 8931 8999.

Ichthys Project Onshore LNG Facilities Update

Peak construction: What routes will the buses travel?

JKC's transportation map, including our park'n'ride locations, used by workers living locally, is provided below with the bus routes highlighted in red.

JKC is committed to ensuring the safety of the community and our workers – please help us continue to share our roads safely.

Ichthys Project Onshore LNG Facilities Update

This week JKC advises transport to and from our sites for the period 6 – 12 June:

Bussing

Please note each bus may be used more than once from different locations

- Twenty-six buses daily carrying workers from Darwin and Palmerston to Bladin Point
- Fifty buses daily from Manigurr-ma Village to Bladin Point
- One bus every half hour from Manigurr-ma Village to Darwin International Airport
- Twenty-nine buses daily from Darwin International Airport park'n'rides to Bladin Point
- Twenty-six buses daily from Yarrowonga park'n'rides to Bladin Point
- Five buses daily from Coolalinga park'n'ride to Bladin Point
- Three buses daily from Tulagi Rd park'n'ride to Bladin Point

Peak bus times:

Monday to Friday from 5am to 7am and 4pm to 6pm

Saturday and Sunday from 5am to 7am and 2pm to 4pm

Park'n'ride Facilities

Construction work for the extension to the existing park'n'ride at Coolalinga is taking place.

Park'n'ride facilities used by local workers are currently operational at:

- Beresford Road, Yarrowonga
- Georgina Crescent, Yarrowonga
- Coolalinga (425 Stuart Highway)
- Palmerston Interchange (temporary, limited)
- Darwin International Airport:
 - Charles Eaton Drive
 - Lancaster Road

Bladin Point

- Forty two road trains daily carrying material from East Arm Port via Berrimah and Wishart roads, Elrundie Avenue, Channel Island and Wickham Point roads to site
- Ten road trains daily transporting crushed rock from Mt Bunday quarry via the Arnhem and Stuart highways, Jenkins, Channel Island and Wickham Point roads to site
- Six concrete trucks daily from Channel Island Road quarry to site
- Ten trucks daily from interstate via Stuart Highway, Jenkins, Channel Island and Wickham Point roads to site

- Up to 16 trucks daily carrying sand from Sunday Creek quarry via the Arnhem and Stuart highways to site
- Heavy vehicle movements will take place from East Arm Port to Bladin Point via Berrimah Road, Tiger Brennan Drive, Stuart Highway, Jenkins, Channel Island and Wickham Point roads. As required, special traffic controls will be in place

Manigurr-ma Village

- Alarm testing will occur each Tuesday at 4pm

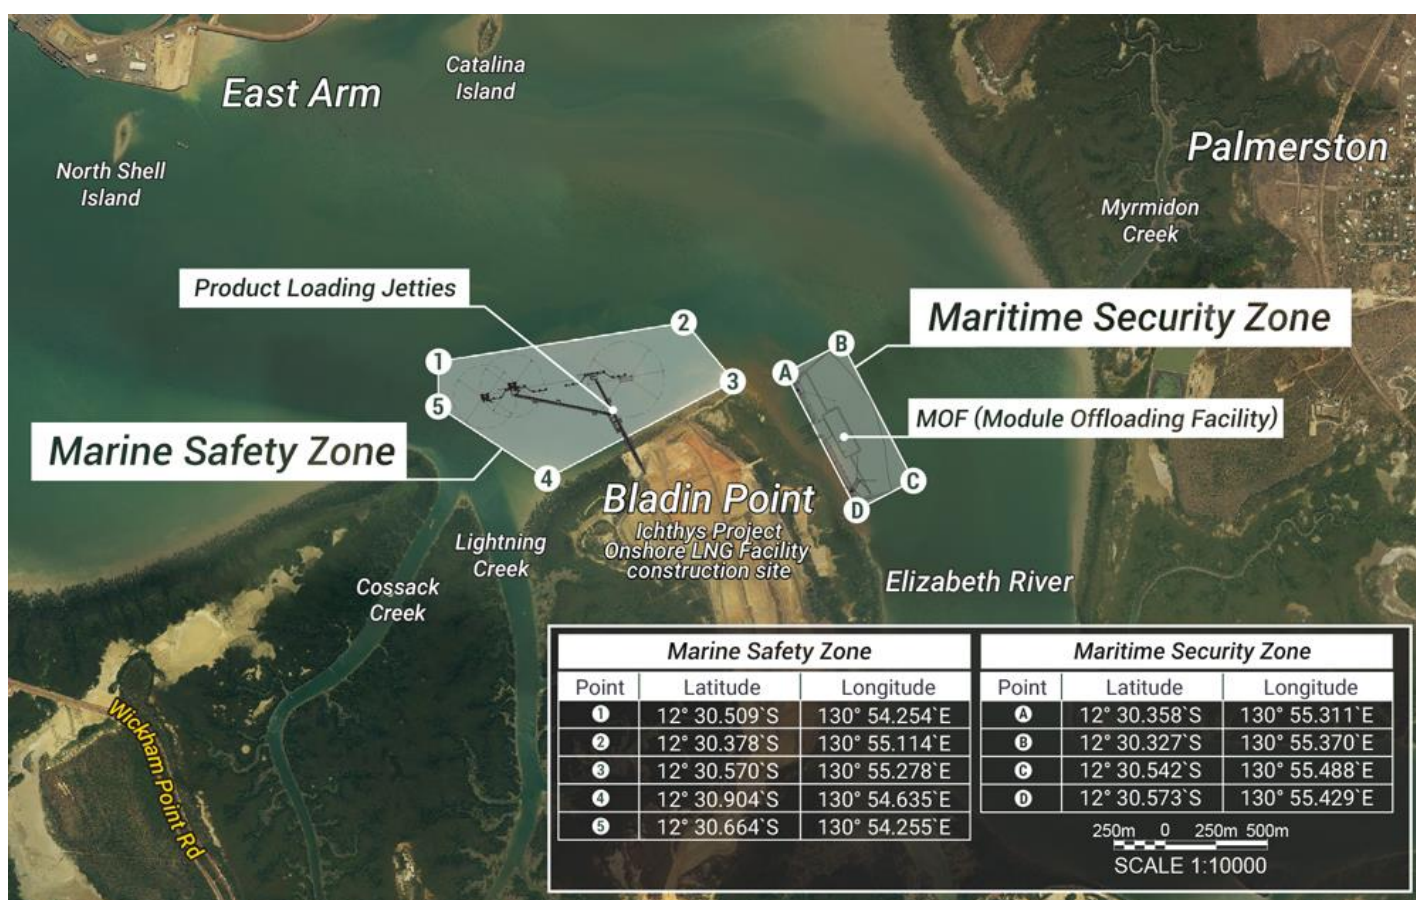

Appropriate dust suppression and street sweeping measures are in place at Bladin Point. All truck rock loads are covered. Noise, dust and road conditions will continue to be monitored.

Ichthys Project Onshore LNG Facilities Update

Marine activity – advice to snorkellers, divers, boaties and harbour users

Module offloading facility (MOF) and Jetty

- A number of marine vessels are now in Darwin Harbour working near the MOF and the jetty near Bladin Point
- Please obey the 250 metre marine safety zone
- Please also check the Mariners' Notices regarding the maritime security zone
- The MOF is now operational and subject to all maritime security regulations
- Large marine vessels and transport barges with associated tugs will be transiting the area
- These vessels are restricted to operations within the marked channel area and are extremely restricted in their ability to manoeuvre

For up-to-date information on activities in the harbour, please remember to always check the Mariners' Notices at www.darwinport.nt.gov.au, which includes information on hazards and safety zones.
