

Ichthys Project Onshore LNG Facilities Update

Community Bulletin #157 – JKC Australia LNG Pty Ltd

The HSE forum delegates gather outside after a morning of onsite workshops and planning sessions.

Focus on health, safety and the environment

As the Ichthys LNG Project moves to the peak construction phase safety continues to be our number one value.

More than 150 people across the Project participated in a two-day 2015 INPEX and JKC Contractor Health, Safety and Environment (HSE) forum last week.

The HSE forum saw participation across a variety of positions on the Project, from leadership, management and worker roles, with everyone involved pledging to raise the bar higher on their personal commitment to health, safety and the environment.

Opportunities to improve HSE performance were identified and will be pursued.

An informal welcome reception was held at the Manigurr-ma Village in Howard Springs, followed by workshops and planning sessions at the construction site at Bladin Point.

The highlight of the forum was the INPEX and JKC Ichthys Onshore HSE Awards, where best practice in HSE were acknowledged and celebrated.

A surprise performance by the Djuki Mala dancers, in Darwin for NAIDOC week festivities, delighted delegates at the Darwin Convention Centre.

Employment enquiries

To register your interest to work on the Project, go to www.ichthysjobs.com. If you have difficulties online please seek assistance at our Construction Employment Mobilisation Centre (CEMC), 22 Mitchell Street, Darwin, from 10am to 4pm, Monday to Friday, or call 8931 8999.

Talk to us

You can contact our Community Relations team with any Project related inquiries by calling our Community Feedback line on 1300 724 795.

Ichthys Project Onshore LNG Facilities Update

Peak construction: What routes will the buses travel?

JKC's transportation map, including our park'n'ride locations, used by workers living locally, is provided below with the bus routes highlighted in red.

Construction works are underway for the new park'n'ride at Coolalinga. The new park'n'ride at Syrimi Rd, Tivendale, is now operational.

JKC is committed to ensuring the safety of the community and our workers – please help us continue to share our roads safely.

Ichthys Project Onshore LNG Facilities Update

This week JKC advises transport to and from our sites for the period 18-24 July:

Bussing

Please note each bus may be used more than once from different locations

- Twenty-six buses daily carrying workers from Darwin and Palmerston to Bladin Point
- Fifty-five buses daily from Manigurr-ma Village to Bladin Point

- Heavy vehicle movements will take place from East Arm Port to Bladin Point via Berrimah Road, Tiger Brennan Drive, Stuart Highway, Jenkins, Channel Island and Wickham Point roads. As required, special traffic controls will be in place

Manigurr-ma Village

- Alarm testing will occur each Tuesday at 4pm

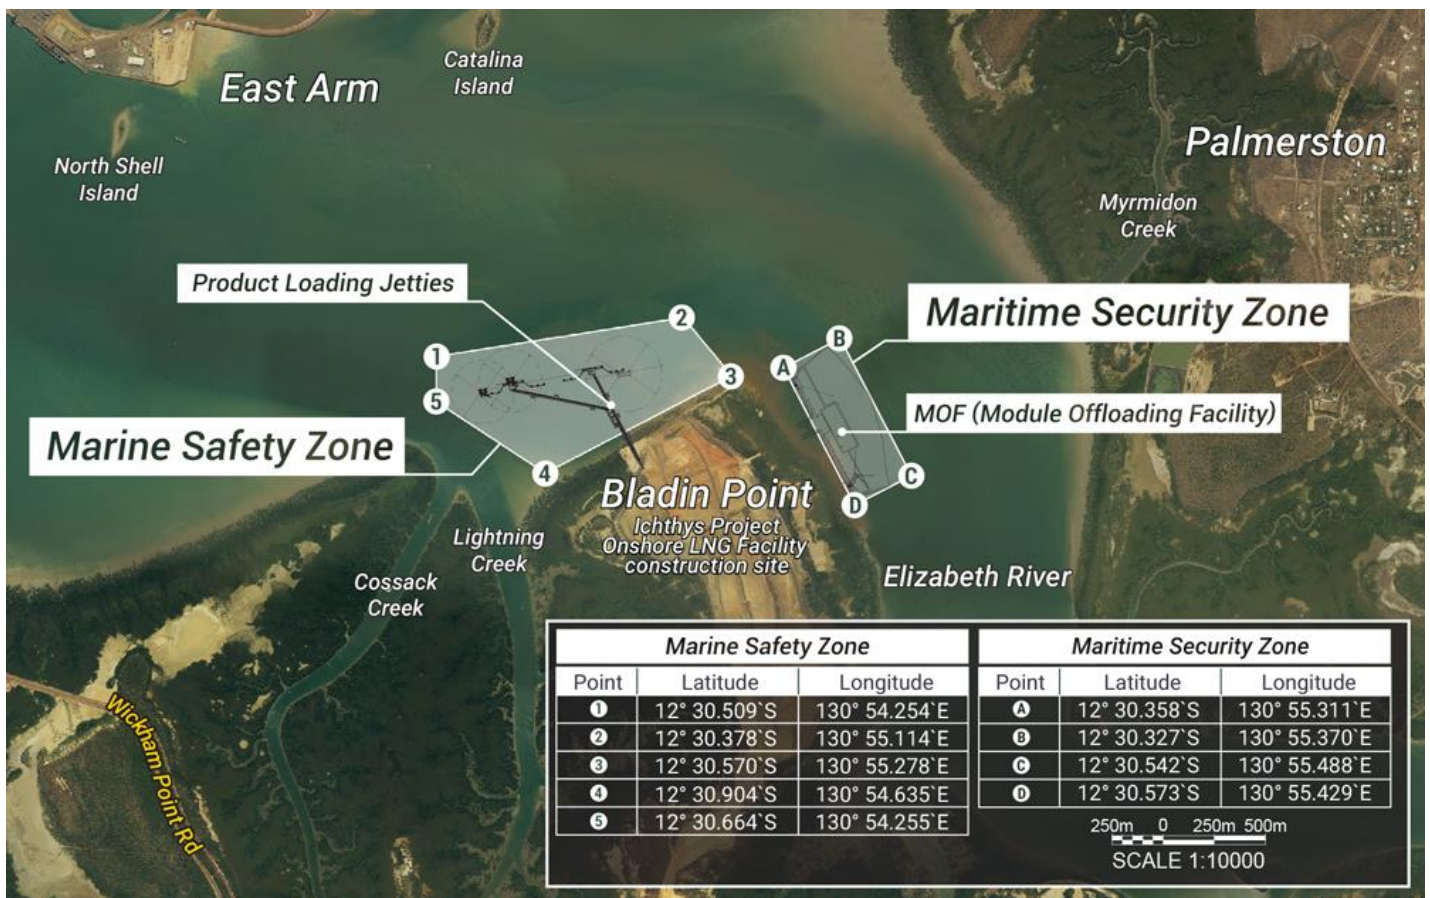

Appropriate dust suppression and street sweeping measures are in place at Bladin Point. All truck rock loads are covered. Noise, dust and road conditions will continue to be monitored.

Ichthys Project Onshore LNG Facilities Update

Marine activity – advice to harbour users

Module offloading facility (MOF) and Jetty

- A number of marine vessels are now in Darwin Harbour working near the MOF and the jetty near Bladin Point
- Please obey the 250 metre marine safety zone
- Please also check the Mariners' Notices regarding the maritime security zone
- The MOF is now operational and subject to all maritime security regulations
- Large marine vessels and transport barges with associated tugs will be transiting the area
- These vessels are restricted to operations within the marked channel area and are extremely restricted in their ability to manoeuvre

For up-to-date information on activities in the harbour, please remember to always check the Mariners' Notices at www.darwinport.nt.gov.au, which includes information on hazards and safety zones.
