

Welcome to the first edition of the Ichthys Project Bulletin for 2016. Here, you can read about some of the thousands of Territorians helping to deliver the Project at Bladin Point. Learn about underwater 'pigs' in our gas export pipeline, the ongoing focus on the mental health of our workforce and helping Territorians in need.

Ichthys Project Bulletin

More than 1000 NT businesses secure Ichthys LNG Project work.

Territory businesses are continuing to play a critical role in the successful delivery of the Ichthys LNG Project as construction continues into its fourth year.

Family-owned and operated Yarrowonga business, Totalweld, is one of more than 1000 local businesses accessing new opportunities through the Project.

General Manager Alan Bennett says Totalweld has been supplying welding equipment and supplies, safety gear and tools to the Project for three years.

"We first started with contractor Laing O'Rourke in 2013 and that gave us the opportunity to supply other contractors on site," Alan said.

"We've worked with contractors building the jetty, the module offloading facility, the tanks and the power station."

Totalweld has been operating for 22 years and now employs 12 people in service, sales and equipment hire.

Alan says the Project has been a great asset in maintaining the business's stability.

"We're here locally to provide a service and that goes a long way in our relationships with customers."

Totalweld General Manager, Alan Bennett

More than A\$8 billion in Project contract commitments has been made in the Northern Territory.

Safely sharing our roads.

Sharing our roads safely is a top priority for the Ichthys LNG Project. Up to 180 dedicated buses will be on the roads each day during our peak construction period to safely transport our workforce and reduce pressure on Top End roads.

- Buses run to and from Bladin Point seven days a week on NT Government-approved transport routes
- Bus runs are timed, where possible, to avoid peak traffic

- Local workers are transported each day from seven dedicated park 'n' rides across Darwin, Palmerston and the rural area
- Buses run between Manigurr-ma Village, Bladin Village, business precincts and the airport
- Larger vehicles, like buses and trucks, take longer to stop so it's important to give them the space they need.

Stay up to date with Project transport information by subscribing to the JKC Community Bulletin at www.ichthysproject.com.

The Ichthys LNG Project gas export pipeline team at work

Pigs test **subsea pipe.**

The Ichthys LNG Project's 883 kilometre subsea gas export pipeline has undergone a series of tests in recent months in preparation for the Project's 40 years of operations.

The pipeline stretches from Darwin to the Ichthys Field in the Browse Basin, 220 kilometres off Western Australia's Kimberley coastline.

In December, the pipeline was filled with 710,000 cubic metres of treated seawater.

Six mechanical devices – called 'pigs' – with callipers and gauge plates were run through the pipeline, displacing air to verify the internal diameter. Magnets attached to the pigs collected any debris that may have been inside.

It took 22 days for the pigs to make their way through to the Browse Basin.

Hydrotesting of the pipeline is now underway to ensure its structural integrity under pressure.

Children from the Knuckey Lagoon Aboriginal community with INPEX General Manager Darwin Sean Kildare and Sharon Greenof from Amity Community Services

Culture a key to inspiration.

The Ichthys LNG Project has joined with Amity Community Services to support a new program to inspire young people toward a brighter future.

The Project has invested \$20,000 in Amity's "Supporting Positive Role Models" which connects vulnerable Aboriginal and Torres Strait Islander students with community mentors.

The mentors are locally identified Aboriginal and Torres Strait Islander leaders who will use stories of their traditional language, culture and career success to inspire young people to develop life skills, healthy habits and self-confidence.

The stories are being captured in a film titled "Gathering Stories of Hope and Inspiration" to be shown in schools from this year.

Employment enquiries.

Construction

Register your interest in working on the Ichthys LNG Project during construction at www.ichthysjobs.com. The Project's lead onshore construction contractor, JKC Australia LNG also runs a Construction Employment Mobilisation Centre (CEMC) at 22 Mitchell Street, Darwin. The CEMC is open from 10am to 4pm Monday to Friday, or call 08 8980 9999.

Operations

The INPEX-operated Ichthys LNG Project has a 40 year lifespan and will create job opportunities for generations of Territorians. You can keep an eye on employment opportunities with INPEX at www.inpex.com.au.

Project workers have access to resilience building workshops and training

Protecting **mental health** in the workforce.

The number one priority for the Ichthys LNG Project is the safety of its workforce, with an ongoing focus on protecting mental health.

The Project's lead contractor, JKC Australia LNG (JKC), has spearheaded a campaign to connect the workforce with mental health service provider, OzHelp.

OzHelp holds barbeques and field visits on site to share information about support services available and how to help a mate going through a tough time.

Already, more than 7000 workers at Bladin Point have met with OzHelp and more than 2000 have undertaken suicide prevention training and workshops.

The fly-in fly-out workforce can get help after hours as well, with OzHelp staff on hand five nights per week at the Manigurr-ma Accommodation Village in Howard Springs.

OzHelp can be contacted on 1300 OZHELP.

Progress at Bladin Point.

More than 6000 kilometres of cables are being installed at Bladin Point.

There are six product storage tanks on site for LNG, propane, butane and condensate.

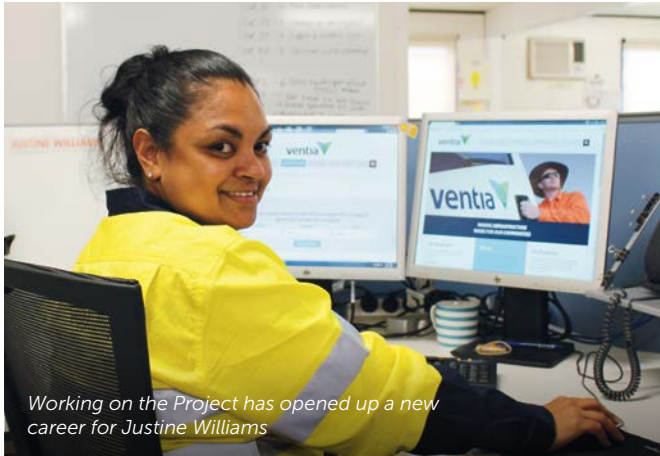

The inlet facilities are the entry point for raw gas flowing into the gas treatment facility.

These pipes will carry propane across the product loading jetty for export by vessel.

Ichthys LNG Project **opens new pathways.**

Working on the Project has opened up a new career for Justine Williams

Larrakia woman, Justine Williams is forging new paths in her career with the Ichthys LNG Project's construction site at Bladin Point.

Justine joined the Project in May 2013, working as an Aboriginal and Torres Strait Islander (ATSI) Field Officer with Leighton Contractors.

With the support of her mentor and colleagues, the mother of three took on a full-time role and has completed a Diploma in Human Resources Management.

That qualification has led to Justine's current role as a People and Capability Adviser with JKC subcontractor, Ventia.

"Completing my training (has) given me confidence, understanding, and direction into my now chosen career path, Human Resources," said Justine.

"I enjoy working in this industry and I am passionate about ATSI engagement."

And they're racing.

INPEX's community partnership program is off and running in 2016 with the Ichthys LNG Project proudly sponsoring the annual Australia Day Fun Run in Darwin.

INPEX General Manager Darwin, Sean Kildare and his son officially started the race to send thousands of keen locals walking and running around the CBD.

It is the sixth time INPEX and the Ichthys LNG Project have sponsored the event.

Applications are now open for round one of the 2016 INPEX Australia Community Sponsorship and Investment program. Submissions close Friday 26 February 2016. Go to www.inpex.com.au for more information or contact sponsorship@inpex.com.au

This year, INPEX representatives will also be attending a range of community events including the Freds Pass Show and Royal Darwin Show.

More than 4000 people took part in this year's Australia Day Fun Run in Darwin

Project subcontractor Buslink VIVO was proud to support children's charity Variety

Digging deep for charities.

Hundreds of Territorians received a helping hand last year thanks to the generosity of the Ichthys LNG Project's construction workforce.

Teams right across the Bladin Point site dug deep to support fundraising barbecues, cupcake events, hair colouring, head shaving and donation drives throughout the year, raising more than A\$ 300,000.

The funds raised support a range of programs including mental health, cancer research and men's and women's health.
